PROFESSIONAL SUMMARY

Entry-level **Cloud / DevOps Engineer** with hands-on experience designing and deploying production-grade infrastructure on **AWS and GCP** using **Terraform IaC**. Shipped two cloud platforms (SecureVault-IaC on AWS, LifeHub AI Cloud on GCP) with full multi-environment Terraform provisioning, KMS encryption, least-privilege IAM, and GitHub Actions CI/CD. Multilingual — Vietnamese (native), **Japanese JLPT N2** (Business), English (TOEIC 665) — with 5 years of real-world Japanese work and study experience. Passionate about cloud automation, infrastructure-as-code, and building secure, reproducible systems.

TECHNICAL SKILLS

Cloud & IaC: AWS (Lambda, S3, DynamoDB, API Gateway, Cognito, CloudFront, IAM, KMS, CloudWatch), GCP (Firebase Auth, Firestore, Cloud Storage, Firebase Hosting), **Terraform**, GitHub Actions, Vercel, CI/CD, Docker (basic), Kubernetes (basic)

Languages: JavaScript, **TypeScript**, Python, Java, Shell, HTML, CSS

Frameworks: React 18, Vite, Node.js, AWS Amplify SDK, React Router

Databases: DynamoDB, Firebase Firestore, MySQL, Cloud Firestore

Tools & OS: Git, GitHub, GitLab, VS Code, IntelliJ, Linux, Windows

PROJECTS

SecureVault-IaC — Serverless cloud storage on AWS · Terraform IaC

securevault-iac.vercel.app · github.com/universw/securevault-iac

- Full AWS serverless stack — Lambda, S3, DynamoDB, API Gateway, Cognito, CloudFront, IAM, KMS, CloudWatch — provisioned entirely with **Terraform across dev / staging / prod**; one-command reproducible infrastructure via terraform apply.
- **Security-first:** KMS-backed S3 encryption, least-privilege IAM per resource, MFA-ready Cognito user pool, per-user file isolation via IAM-scoped S3 path prefixes, presigned-URL uploads with 5-minute expiry, CloudFront with security headers.
- End-to-end CI/CD via GitHub Actions; Python 3.12 Lambda backend behind API Gateway with JWT validation against Cognito; React 18 + Vite frontend auto-deployed to Vercel.

LifeHub AI Cloud — Personal productivity SaaS on GCP · Terraform IaC

lifehub-ai-cloud.web.app · github.com/universw/lifehub-cloud-ai-iac

- Full-stack personal SaaS (files, notes, saved links, activity feed) on **GCP** — Firebase Auth, per-user Firestore + Cloud Storage with strict security rules; React + Vite frontend on Firebase Hosting.
- Google Cloud infrastructure **fully provisioned with Terraform**; per-user data isolation enforced at the Firestore security-rules layer; GitHub Actions CI/CD with automated Terraform plan & apply workflows.

Portfofia — Multilingual portfolio platform · Firebase full-stack

portfo-38945.web.app · github.com/universw/portfofia

- Personal portfolio with **4-language i18n** (Japanese · English · Vietnamese · Chinese) — React + Vite, Firebase Auth (Google / GitHub OAuth), Firestore, Firebase Hosting, automated GitHub Actions CI/CD.
- Japanese business pitch video recorded at Chiba Mode Business College: youtu.be/9p-opVglnaQ — demonstrates technical communication in Japanese.

EXPERIENCE

- Part-time Staff — Sukiya (Zensho Holdings), Tokyo & Chiba, Japan**

2018–2020 · 2023–2026
- Operated fully in Japanese across all tasks — customer service, POS/payment systems, kitchen operations, inventory management, and customer issue resolution in a high-throughput environment.
 - Trained and onboarded 6+ new staff members from diverse backgrounds; escalated incidents to store managers with structured verbal and written reports in Japanese (horenso / ■■■■■■).

- Logistics Assistant — Yamato Transport (■■■■■), Tokyo & Chiba**

2018 · 2023–2024
- Sorted and loaded parcels during peak delivery cycles; coordinated with Japanese supervisors on KPI targets and safety compliance; completed shift handover documentation in Japanese.

EDUCATION

- Chiba Mode Business College — International Business IT**

Graduated Mar 2025
- Akamonkai Japanese Language School — Japanese Language Program**

Graduated Mar 2020
